Progress Report

# Florida Association of Nonprofit Organizations 2008 Progress Report

Dear Nonprofit Leaders,

As we reflect on the last two years, we can clearly see that FANO has provided the type of leadership and innovation that sets the bar in Florida. With the help of many in our member organizations, our list of accomplishments continues to grow. Some examples include:

Chairman Barbara Weinstein, Ph.D. A successful partnership with economic development and city government organizations which resulted in *The Ideas Exchange*—our 17th annual conference, which was held in May 2008. FANO showcased more than 60 nonprofit best practices during the Expo

**The Florida Nonprofit Think Tank** which gave FANO members and friends an opportunity to participate in a sector-wide brainstorming session. Hosted by The Collaborative Lab at St. Petersburg College, the first event took place in November of 2006 and was repeated in May of 2008

**You Asked for Help - We Leveraged Resources** We are all feeling the pinch. That's why in early 2009 FANO will launch several major purchasing programs aimed at saving you money. Our goal is to cut your office supply budget in half! But we need you to help us help you, so we will be calling on you for help and suggestions on leveraging FANO's buying power for the entire nonprofit community.

**\$500,000 Isn't Enough** savings for our members. That is how much we have saved you in 2007, mostly through the "First Nonprofit Unemployment Savings Program." This program allows nonprofits to stop making payments to the state unemployment tax program and instead make monthly payments into their own account from which any future benefits will be drawn. **Deadline for registration this year is November 30.** Our goal is to save you even more money this year!

A Fresh Look for FANO was introduced this year, beginning with a fold-out brochure that is the result of countless hours of investment by Marina Pavlov and award-winning artist and graphic designer Richard Lund. Watch as more materials are unveiled along with our new-and-improved website FANO is Improving Communication with the

distribution of our e-newsletter "WZ New?" along with the vital information on advocacy, funding and ideas sent via email. This information, along with GrantStation, offers assistance to more than 7000 nonprofit agencies statewide

Two new partners, Nova Southeastern University and Broward College have joined us in sponsoring FANO's flagship "Certificate in Nonprofit Management" Program (CNM). In 2007, we had a Bumper Crop of CNM Graduates as 59 people completed the intensive 11part series. Currently eight new participants are moving through our pilot Saturday program.

**Nonprofit Start-Up Classes Have Been a Hit** and are continuing to be held the first Friday of each month. Classes are delivered where people need them and occasionally by phone. In 2007, the first class was conducted in Spanish. We are also launching our publication titled *34 Issues to Consider When Starting A Nonprofit* 

With More Than 45,000 Nonprofits Operating in Florida, FANO's mission is more important than ever. Our economic impact report, titled *Florida Nonprofits: More Than A Charity*, begins on page 23

**Several Board Changes** have taken place in an effort to enhance statewide representation. This includes the addition of Board Member Alan Martinez from Pinellas County and Bob Kovacevich from Orange County. I became FANO chairperson after the untimely death of FANO chairman and former Florida Representative John Cosgrove. His 17 year dedication to FANO and pioneering work in drafting the Nonprofit Bill of Rights in 1991 were only a few of the contributions for which he is remembered. He is missed by all of us.

**We're Listening To You!** As always, FANO remains your organization and we want to hear from you about how FANO can continue to provide what you need from us. Our members are the driving force behind FANO's success and we appreciate each and every one!

Sincerely, Barbara

### FLORIDA ORGANIZATIONS: REVENUE SOURCE/SIZE AND GEOGRAPHIC REGION

•About 13% of total revenues for reporting charitable nonprofits in Florida were from contributions made by individuals, corporations, and foundation. (Fig. 2)

•The major source of revenues is program service fees and charges. Other sources include government support and investment income. (Fig. 2)

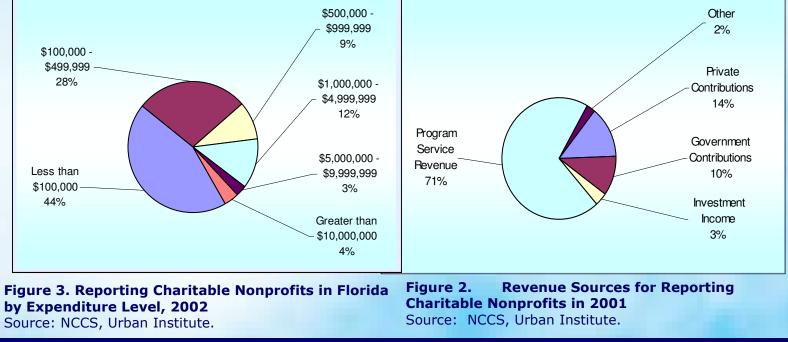

•In 2002, only 3% of Florida's reporting charitable nonprofits had annual expenditures greater than \$5 million. However, these organizations accounted for over 80% of total assets and 86.3% of total expenditures (Fig. 3).

### FLORIDA NONPROFIT EMPLOYMENT

#### Figure 8. Wages Paid by Florida Nonprofits and Others, 2000 Source: Johns Hopkins Center for Civil Society Studies

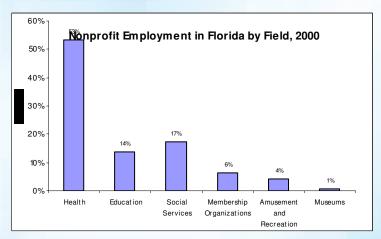

Figure 9. Nonprofit Employment in Florida by Field, 2002 Source: Johns Hopkins Center for Civil Society Studies  In 2000, nonprofit organizations employed 398,691 people. Entities exempt under section 501(c) 3 employed 352,739 people, approximately 5.0% of the state's labor force. By comparison, 501(c) 3 organizations comprise about 7.0% of employment nationwide (Fig. 10)

 Nonprofit employees earned \$9.7 billion in wages, or about 5% of the state total (Fig. 8)

 This is approximately equal to the total wages paid in the state's construction industry, 70% more than the total wages paid to state government employees, and almost ten times more than the total wages paid in the state's food manufacturing industry (Fig. 8)

 The health field accounts for the largest proportion of nonprofit employment in Florida, as in other states. Approximately 53% of all nonprofit employees in the state work for health organizations (Fig. 9)

Though significantly lower than health organizations, social service and education organizations account for the next largest components of the nonprofit workforce in Florida, with 17% and 14% of the employees, respectively. Social service organizations include services to individuals and families, day care, residential care, and employment and training. Education includes elementary and secondary education as well as colleges and universities (Fig. 9)
