## UNEMPLOYMENT SAVINGS

### *A Creative Way to Save!*

Thinking outside your routine is uncomfortable, but in the long run it can have great benefits.

One such option is to leave your state unemployment system and join the Unemployment Savings Program or Bonded Service Program. We have helped save Florida Nonprofits an average 54% over their previous unemployment costs. Florida tax cost per employee continues to increase every year. In 2014 the unemployment wage base will increase from \$8,000 to \$9,000 therefore the average unemployment tax cost for each employee.

**You organization may be eligible for a substantial savings from FANO, your voice for nonprofits since 1990.**

First Nonprofit Group

An AmTrust Financial Company

First Nonprofit Group has been insuring the nonprofit sector since 1978, exclusively. They have been providing unique risk management programs to limit unemployment exposure and capture savings for nonprofits, government entities and native American Indian Tribes. Based in Chicago, they work in all 50 states and have 1,500 unemployment clients nationwide. They offer a complete line of unemployment solutions. ## CONSIDER THIS OPPORTUNITY

It is a legal option, only available to nonprofit organizations.

Each year the State charges your organization a fixed dollar amount whether your claims have reached that amount or not. Year after year, you're overpaying into the State system; the state never refunds that money to you. Becoming a reimbursor and paying only for your own claims is a strategic option to save money and improve your bottom line.

It's *amazing* that many nonprofit organizations are unaware of the savings they could realize by withdrawing from the State program.

You also have the opportunity to have a dedicated program administrator for your organization. The benefits are real, and the law supports this method. Remember the money you save is unrestricted income.
