In cooperation with Health Choice Network 

MORNING KEYNOTERS:

CORPORATE COMPLIANCE

Moderator: **Rosalyn Frazier, Broward Community and Family Health Centers, Inc.**

Keynoters: **Jacqueline C. Leifer & Feldesman Tucker, Leifer Fidell LLP**

The Federal Government has now mandated that providers establish corporate compliance programs as a condition of enrollment in Medicaid and Medicare. The Feds also are assigning more resources to prosecute fraud and abuse. To survive and to keep our doors open to provide quality care for the underserved, we need to be current with the changing requirements. Join this session and review key updates from HRSA and OIG as well as receive guidance on how to embed the requirements in your organization's quality and risk management plans. Participants will discover key elements and effective evaluation components of effective compliance programs. Please join us as we address strategies to identify and address areas of highest risk, such as Medicare, Medicaid, HRSA funding, billing and claims, and other requirements.

LUNCHEON PRESENTATION: **Saint Anthony Amofah, MD and Hirut Kassaye, HCN**

AFTERNOON KEYNOTERS:

CHANGE ACCELERATION

Moderator: **Steven Marcus, Health Foundation of South Florida**

Keynoters: **Keven Carpenter and Bobby Love**

In today's environment pressures originate from their numerous funding agencies, regulatory bodies, the communities we serve, as well as our patients and families. With the distractions of staff turnover, limited resources and crisis management, as well as a need to handle multiple different initiatives and programs with precision, there is a need to have structured processes to handle change. The speakers in this session will begin with an overview of the variety of pressures on leadership, and then present guidance and concepts that will be valuable as they navigate the complex, new health care marketplace. Join us and discover how to address the significant pressure to serve more patients and improve outcomes while reducing costs and remaining competitive. In this session participants will identify significant daily pressures on operations and discover structured methodology to implement change and ensure success and sustainability. Design best next steps to implement the process.
